

Introduction developing Formularies and instigating active DTCs

Second MURIA meeting

Prepared by Brian Godman

Advanced Group – Developing formularies/ instigating DTCs – Aims (Auditorium 2)

- The aims of this alternative workshop on Monday morning is to:
 - ❑ provide delegates with case histories regarding challenges with instigating DTCs within countries
 - ❑ demonstrate how these have been/ are being addressed to improve the appropriate use of medicines
- Subsequently utilise this knowledge to further develop DTCs within countries
- Learnings include how:
 - ❑ DTCs have been instigated in a number of countries to enhance the appropriate use of medicines
 - ❑ the content of the session can be applied to different countries
